

EP10

Built on the core technologies of Psion Omnia™, EP10 packs full-sized functionality into a handy, ergonomic device. It is the industry's most powerful and durable PDA. Unlike consumer-grade hardware, EP10 is optimised for commercial and industrial applications.

- Uncompromised performance - 800MHz processor, 256MB RAM and 2GB flash ROM
- Compact form factor, ergonomic, EP10 weighs only 345g with a durable case
- Full sized features - phone functionality, 3.2MP camera, 2D imager
- Ultimate wireless - HSDPA, CDMA, WiFi, Bluetooth, A-GPS, and Antenna
- Optimal viewing - 3.7" VGA colour transfective display as well as integrated touch screen
- Smart sensors - it is packed with everything from proximity and light sensors to an accelerometer, gyroscope, digital compass and GPS allowing for automatic backlighting and screen rotation and accurate data geo-tagging capabilities.
